- **Drivers:** a better oncology mix, operating leverage and disciplined cost management.

***Commenting on the Results, Mr. Sanjay Shah, Managing Director*** *said,*

*"Q2 FY27 has been a quarter of meaningful progress for our oncology business, with encouraging developments across regulatory approvals, technology transfers and global market access. These milestones have strengthened our international presence, deepened relationships with global partners and laid a strong foundation for future growth.*

*The commencement of commercial supplies from our EU GMP-approved, API-integrated oncology facility marks an important milestone. Supported by our in-house API capabilities and ongoing technology transfers, we are strengthening our integrated platform, enhancing supply-chain control and expanding our ability to serve regulated markets.*

*Looking ahead, we remain optimistic about the opportunities arising from our expanding oncology portfolio, growing pipeline and international partnerships. We believe these developments will support export growth, improved capacity utilisation and operating efficiencies, positioning Sakar Healthcare for sustainable, long-term growth."*

## About Sakar HealthCare Limited:

Established in 2004 and headquartered in Ahmedabad, Gujarat, Sakar Healthcare Limited is a publicly listed pharmaceutical manufacturer and exporter specializing in oncology, antibiotics, and general formulations. The company operates world-class, EU-GMP and WHO-GMP certified facilities equipped to manufacture oral solids, injectables, oral liquids, and high-potent oncology products. Sakar's oncology division at Bavla represents a research-driven, API-integrated facility focused on developing and commercializing complex cytotoxic formulations and APIs, underscoring its commitment to innovation and quality. With an extensive global footprint across more than 60 countries, Sakar serves as a trusted partner to multinational pharmaceutical companies through CDMO, CRAMS, and technology transfer collaborations. Driven by its vision to deliver world-class healthcare solutions that make lives healthier and more meaningful, Sakar continues to expand its presence across regulated markets through strong R&D capabilities, regulatory excellence, and sustainable manufacturing practices rooted in green chemistry principles.
